The Electric Privacy Panel with Liquid Crystal Solution

- ✓ Battery powered switch activation
- ✓ Converts from clear to opaque instantly
- ✓ Security key or button controlled
- ✓ 10mm toughened glass
- ✓ No visible fixings
- ✓ Fire ratings
- ✓ Bespoke sizes available
- ✓ Technical advice and support

POWERED BY POWERVISION

Privi-see+ is an electronic fire rated privacy panel which switches from clear to opaque in an instant. Powered by Powervision embedded within the door Privi-see+ is activated by either a key on the exterior or by button on the interior, providing the right control for the environment.

APPLICATIONS

Privacy Panels are ideal for hospitals, healthcare environments, police stations, government buildings, prisons, schools and private businesses. Ideal as an office partition, window, a corridor or within a door panel. Suitable to create controllable seclusion, protect from sun light, control light levels and reduce glare.

SPECIFICATION

A Privi-see+ glass panel comprises of a transparent film of liquid crystal sandwiched between two sheets of safety glass. When a small current is passed through the liquid crystal film the particles change position and thus become opaque, removing the current reverses the cycle.

SIZES

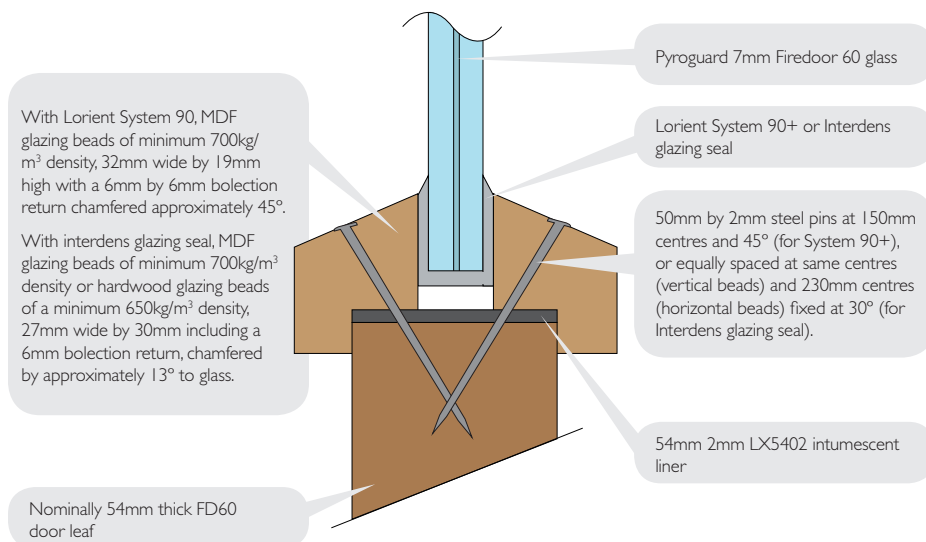

Due to the fact that the frosting is a non-mechanical solution it can be produced to any size you require.

SUITABILITY

- Seclusion
- Protection from sunlight
- Light control
- Reduced glare

FIRE RATING

Fire certificate no CF257.

Benefits:

- ✓ Non mechanical solution
- ✓ Minimal moving parts
- ✓ Key and button control options
- ✓ Completely clear when 'open'
- ✓ Easy to install
- ✓ Improved acoustic performance
- ✓ Fire resistant
- ✓ Fits within standard framework
- ✓ Maintenance free
